About Us

At **Chennai Power Engineering Pvt. Ltd.**, we specialize in delivering reliable, high-performance electrical panel solutions tailored to the needs of modern infrastructure. Founded in 2021 and backed by over **four decades of technical expertise**, we design, manufacture, and commission **MV & LT panels, control systems, and industrial power solutions** with a commitment to quality and customer satisfaction.

Led by our CEO and Technical Head, **Mr. K. Periaswamy**, a veteran with 40+ years of industry experience, we combine legacy engineering knowledge with state-of-the-art manufacturing to support power distribution, automation, and energy efficiency across sectors.

Our Solutions

We help our clients solve critical challenges in power control and distribution by providing:

- **Tailored MV & LT Panels** for industrial, commercial, and utility needs
- **Custom control panel systems** for power plants up to 1 MVA
- **Turnkey electrical installation services** for buildings, IT parks, and manufacturing units

Each solution is designed with precision, tested for quality, and built to deliver performance, safety, and longevity.

Our Products

- MV Panels & LT Switch Boards
- Power Control Centers (PCC)
- Motor Control Centers (MCC)
- Auto Main Failure (AMF) Panels
- Generator & Heater Control Panels
- Power Factor Correction Panels (Manual & Automatic)
- TNEB Metering Panels
- Distribution Boards (Floor & Wall Mounted)
- LT Bus Ducts (Indoor & Outdoor)
- Rising Mains & Capacitor Banks
- Control Desks, Push Button Stations, Junction Boxes
- Sequential Starters (Custom Designed)

Why Choose Chennai Power Engineering?

- **Proven Expertise:** 40+ years of real-world engineering experience
- **Reliable Products:** Built to meet IS standards with in-house testing
- **Customer Focus:** Personalized service during and beyond the warranty period
- **Modern Infrastructure:** Advanced factory and skilled workforce in Chennai
- **Trusted by Industry Leaders:** Certified and approved by government and private agencies

Trusted By Industry Leaders

- Tata Electronics
- Indian Oil Corporation Ltd. (IOCL) – Southern Region
- RITES Ltd. – Southern Region, Govt. of India
- DGS&D, Govt. of India
- VA Tech Wabag Limited, Chennai
- SGS India Ltd.
- AVANT-GARDE

Our Infrastructure

Administrative Office

Our registered and administrative office in Ekkaduthangal, Chennai, is equipped with modern communication tools and efficient staffs to ensure smooth operations.

Factory

Located in Ekkaduthangal, Chennai, our factory is equipped with advanced machinery and a skilled workforce to handle the manufacturing of a wide range of electrical panels and systems.

Testing

We conduct all routine tests in-house as per IS specifications. For special requirements, we make necessary arrangements to meet customer needs.

Servicing

Our customer support team ensures that all products provide trouble-free performance during and beyond the guarantee period. We are committed to building long-term relationships by delivering reliable service and support.
